PARTNER WITH CBCN

Make a Meaningful
Impact in the Lives of
Breast Cancer Patients
and their Families

*Having breast cancer is an
overwhelming experience; finding
information and support shouldn't be.*

At the Canadian Breast Cancer Network (CBCN), we have made it our mission to support breast cancer patients and their families through education and working to secure timely access to adequate cancer care.

Helping patients understand breast cancer and its treatments can alleviate the fear and anxiety associated with diagnosis, providing individuals with coping strategies, emotional support, and promoting overall health and well-being. Patients armed with education are then empowered to actively participate in their healthcare decisions, ask questions, and advocate for themselves.

This impactful work provides individuals diagnosed with breast cancer with a sense of belonging and understanding as they navigate and live with the challenges of a breast cancer diagnosis.

We invite you to become a part of our journey by partnering with us to make a meaning difference in the lives of breast cancer patients and their families.

Cathy Ammendolea
Chair, Board of Directors
